

**Update 22: 1st Feb 2011**

## **GOOD NEWS FOR THE ATLANTIC ISLANDS CENTRE**

You will probably know by now that planning consent has been granted to allow the Centre to be built. At the Discretionary Hearing yesterday the planning committee voted unanimously to overturn the advice from their officers to refuse permission to demolish the Engine Shed.

The Directors would like to thank all their supporters, especially those who spoke at the Hearing, and the planning committee for their belief in this project.

This means that we can now go ahead to try to raise the remaining funds that are necessary.
