

**Update 24: 18 October 2011**

## **PROGRESS ON FUNDING** **THE ATLANTIC ISLANDS CENTRE**

Three Trust directors and our architect recently met with representatives of potential funders of the Centre and other agencies at a meeting in Dunoon convened by our constituency MSP Michael Russell and his assistant Louise Glen-Lee.

It was a very positive meeting with everyone present indicating that they would be willing to support our project in whatever way they can. Because of the difficulty of obtaining funding in the current economic climate we have decided to reduce the size and cost of the Centre by making the new building shorter whilst maintaining the key elements within it.

We still have a considerable way to go, but we have also been granted more time to raise the necessary funding.

Thanks to everyone for your continued support and understanding.
