**UPDATE 32**

**June 2013**

### **CONTRACTOR TO BE APPOINTED FOR ATLANTIC ISLANDS CENTRE**

The building of the Atlantic Islands Centre has moved a step closer after contractors submitted their tenders for the main construction works.

Three contractors submitted tenders, and the good news is that the lowest tender is within the approved budget for the project. Once all the details have been checked and reviewed by the various funding bodies, the Trust will be able to move forward and formally appoint the successful contractor. It is hoped that all the necessary approvals can be completed without delay and that building work will be able to commence on site in late July.

The construction phase will be managed by the Trust's professional design team working closely with Andrew Pinkerton, the Trust Project Development Manager. Andrew started work at the beginning of April and is now living on the island most weeks. If you haven't met him yet, please introduce yourself to him. He is happy to answer any questions anyone might have on the next stage of the project, so feel free to drop in to see him at The Boathouse beside Ben More in Cullipool or contact him by phone or E-mail.
